EXPERIENCES

Contracteur, Marrakech, MA
Full-Stack Web Developer

Oct 2021 - Présent

- Successfully designed and developed more than 20 scalable, secure and globalized web applications to ensure the continuity of all business processes and customer satisfaction.

- Assisted several students in the development of several websites and online applications and discussed each step I take for a deeper understanding.

Freelancer, Marrakech, MA
Python Backend Developer

Septembre 2020 – Novembre 2022

- Developed web application back end components while communicating with 10+ clients to identify their needs/goals and work on meeting them.
- Created a web tester for testing the web app developed for clients before delivering the product.
- Consumed APIs while utilizing Python requests to read numerous JSON reports and made telegram bots return the API get request
- Obtained adequate experience in reviewing Python code for running the troubleshooting test-cases and bug issues, acquiring all necessary skills.
- Developed, tested, and debugged software tools utilized by 100+ clients and internal customers to facilitate and easier process and user experience.

Volunteer Assistant, MA (remote)
April 2020 – May 2020

- Helped organize orders by contacting consumers and processing the payment.
- Effectively managed the customer orders and listed them in an excel sheet.
- Communicated clearly with the supervisors on a video chat in both English and French.
